

Enrolment Analysis and Identification

This section of the Pupil Accommodation report is intended to present enrolment information concerning all of the schools in the Lambton Kent District School Board. For the purposes of this section schools have been arranged by families according to the secondary schools to which the elementary schools send students at the completion of grade 8. Since many of the board elementary schools send students to several secondary schools, elementary schools may appear in more than one family for this analysis.

In the analysis, the term "*Capacity*" refers to the Ministry rated capacity for each school. The "Sept. 2009 Enrol." term refers to the full time equivalent enrolment on September 30, 2009. %Full is the per cent of the capacity filled by the enrolment. "Vacant Spaces" expresses the difference between the capacity and the enrolment.

Note:

All elementary ministry rated capacities have been adjusted by the ministry to account for the changes in the JK to Grade 3 hardcap of 20:1 as well as the classroom space being utilized by the Best Start Program.

Secondary Ministry rated capacities do not give a clear indication of space available in Secondary schools due to the limits on class size in the Collective Agreement with OSSTF.

Family of Schools Capacity Summary

A. Vocational Schools

Family: *Alexander Mackenzie S.S.				
Secondary School(s)	Capacity	Sept. 2009	%Full	Vacant Spaces
Alexander Mackenzie S.S.	816	532.00	65.20%	284.00
Totals	816	532.00	65.20%	284.00

*The specialized nature of Alexander Mackenzie Secondary School necessitates smaller class sizes which impacts on capacity.

B. Blenheim District High School Family

Family: Blenheim District H.S.				
Secondary School(s)	Capacity	Sept. 2009	%Full	Vacant Spaces
Blenheim District H.S.	738	522.00	70.73%	216.00
