Item	Discussion	Action/Responsibility
Welcome	<ul style="list-style-type: none"> Director Stucke thanked everyone for attending and reminded the audience that there will be a specific time and opportunity as outlined in the agenda for questions from the public. 	
Review of Record of Action (ROA) from the January 7, 2010 ARC Meeting	<ul style="list-style-type: none"> The committee agreed the Record of Action from the January 7th meeting was accurate. 	

Item	Discussion	Action/Responsibility
Completion of School Information Profile - Value to Local Community	<ul style="list-style-type: none"> Through discussion among committee members, Superintendent Phills guided the process of completing the School Information Profiles regarding the Value to the Local Economy forms for each of the Petrolia schools. These forms will be added to the individual school profiles and posted on the board website. 	
Website Update	<ul style="list-style-type: none"> Director Stucke encouraged everyone to explore the ARC link on the Board website which provides the opportunity for committee members as well as the public to ask questions or make suggestions. Questions and answers which were posted on the Board website since the last meeting were reviewed. Question and Answer section of the website will be regularly updated throughout the ARC process. 	
Identification of Issues	<ul style="list-style-type: none"> <u>Current lack of capacity at both Hillcrest and Queen Elizabeth II public schools.</u> This will also be impacted with the implementation of a full time kindergarten program over the next four years. <u>Aging infrastructure of the schools.</u> The schools are currently in satisfactory condition. However, future upgrades have been identified in the board's Capital plan. <u>Uncertainty surrounding the projection of French Immersion enrolment.</u> The French Immersion Review Committee has not yet completed and released their report to Board. The province is introducing a French Immersion study. <u>New housing development in the Petrolia Area.</u> Director Stucke stated that this is a unique area in the District where growth is significant and evident. Committee members reviewed and discussed statistical data from the Town of Petrolia including building permits from 2002-2009 and a spreadsheet indicating current and projected population for the Petrolia and surrounding area. A number of committee members questioned the annual growth rate anticipated in the AECOM statistical data, indicating the 2% annual increase as too optimistic. 	
Brainstorming of Options	<p>The committee was asked to consider all possible scenarios that might lead to options for more in depth consideration. After creative discussion the scenarios were narrowed to the following 5 Options:</p> <ol style="list-style-type: none"> <i>Boundary adjustment to move students from the town of Petrolia to Lambton Centennial. This would involve a significant boundary study.</i> 	L. Vandeschoot to provide boundary scenarios including transportation costs

Item	Discussion	Action/Responsibility
	<ol style="list-style-type: none"> <li data-bbox="489 207 1482 326">2. A stand alone French Immersion school JK-8 at Hillcrest P.S. Provide JK – 8 regular program at Q.E. P.S. Hillcrest capacity of 213 could accommodate F.I. enrolment of 174 students. Q.E.'s capacity of 253 would require an addition to accommodate the 405 students in a JK-8 regular program. <li data-bbox="489 362 1482 448">3. Move the JK-8 French Immersion Program (174 students) to Lambton Centennial. The current JK-8 regular program (276 students) would remain at Centennial. This option would require an addition <li data-bbox="489 483 1482 602">4. Build additions to accommodate growth at both Hillcrest and Queen Elizabeth public schools. This would allow the existing programs to remain intact at both schools. This would be dependent on Capital Funding from the Ministry. <li data-bbox="489 638 1482 724">5. Build a new school to consolidate Hillcrest and Queen Elizabeth II P.S. This would involve some short term options and would be dependent on Capital Funding from the Ministry. 	<p data-bbox="1518 207 1927 293">G.Stucke to discuss with Program Department regarding change from Board current model.</p> <p data-bbox="1518 362 1927 415">Transportation and addition costs to be investigated.</p> <p data-bbox="1518 483 1927 537">Approximate costs to be determined - Ron Andruchow</p> <p data-bbox="1518 638 1927 691">Approximate costs to be determined - Ron Andruchow</p>
<p data-bbox="105 760 384 813">Questions/Input from the Public</p>	<ul style="list-style-type: none"> <li data-bbox="489 760 1482 878">• Comment - Donna McAuslan, LCCVI Parent. As a parent, she liked the current integration French Immersion model and would be concerned that a stand alone French Immersion school may deter enrolment as an “all French school”. <li data-bbox="489 886 1482 1032">• Comment – Glen Williams, Hillcrest Parent. Children enrolled in the French Immersion program at Hillcrest. Spoke very favourably of the program and the teachers at Hillcrest. He is not opposed to a stand alone French Immersion school and would support an addition at Queen Elizabeth II Public School. <li data-bbox="489 1040 1482 1187">• Comment – Allan Labadie, Hillcrest Parent. Relocated to the Petrolia area specifically for the French Immersion program. Is supportive of the F.I. program moving to integrate with Lambton Centennial's JK-8 program and having both Hillcrest and Queen Elizabeth becoming JK-8 regular program schools. <li data-bbox="489 1195 1482 1281">• Comment – Debbie Fox, Hillcrest and Queen Elizabeth Parent. Resides on Discovery line and would support re-arranging school boundaries if it would provide a long term solution. <li data-bbox="489 1289 1482 1375">• Comment – Christine Hollingsworth, Queen Elizabeth Parent. Supports one addition. Would like the committee to re-consider the blending of two schools for a JK-6 program and have the Gr 7 & 8 attend in one location.
