

Education Week Message from the Director of Education, Jim Costello

The Ministry of Education has declared the week of May 4th to May 8th as Education Week across Ontario. Our theme for this year's celebration is:

Every Student, Every Day

In each of our schools, our staff strives to provide and build authentic relationships with our students and in turn, make a difference in their lives. The impact of this work is incremental and occurs in each school, for every student, every day of the school year. The sum of these individual experiences is indeed significant when accumulated across 64 schools. In short, our staff adds to the quality of life for our students.

I am proud of the work being done across the Lambton Kent District School Board. Our students work hard and achieve great things while stretching the boundaries of what was once thought to be unachievable. Our trustees, staff and administration are working together to ensure that we are on an upward trajectory as a team.

Best wishes to all for a successful Education Week and invite you to visit our website to learn more of the Education Week activities in our schools:
