

K-6 Transition Committee
Report to the Committee December 4, 2013

The Transition K-6 Committee met at DA Gordon on November 26th at 4:30pm.

We had 12 people in attendance.

We started by discussing what we would like others to know about our schools then moved into a conversation focused around what the concerns that we have heard from students, parents and staff regarding the transition.

The main concern from the groups was the issue of the boundaries. We look forward to hearing from the board as to what the boundaries will be.

The second concern was that students and parents alike are concerned with how their new school will look. How will the schools be different and how will they remain the same. Miss Fox and I will be meeting tomorrow night to look at what parents from DA want to know and creating a form that we can send out to other schools for their input.

We also discussed the idea of joining the schools for some special activities. We talked about some sporting events, art events (Art goes to School), science events (such as Mad Science) among others.

Question for the Main Committee:

Do we have any funds to support busing students between schools to share in the activities?

Next Meeting: January 14, 2014 at 4:30 at AA Wright
