

How to Install an App from the App Catalog

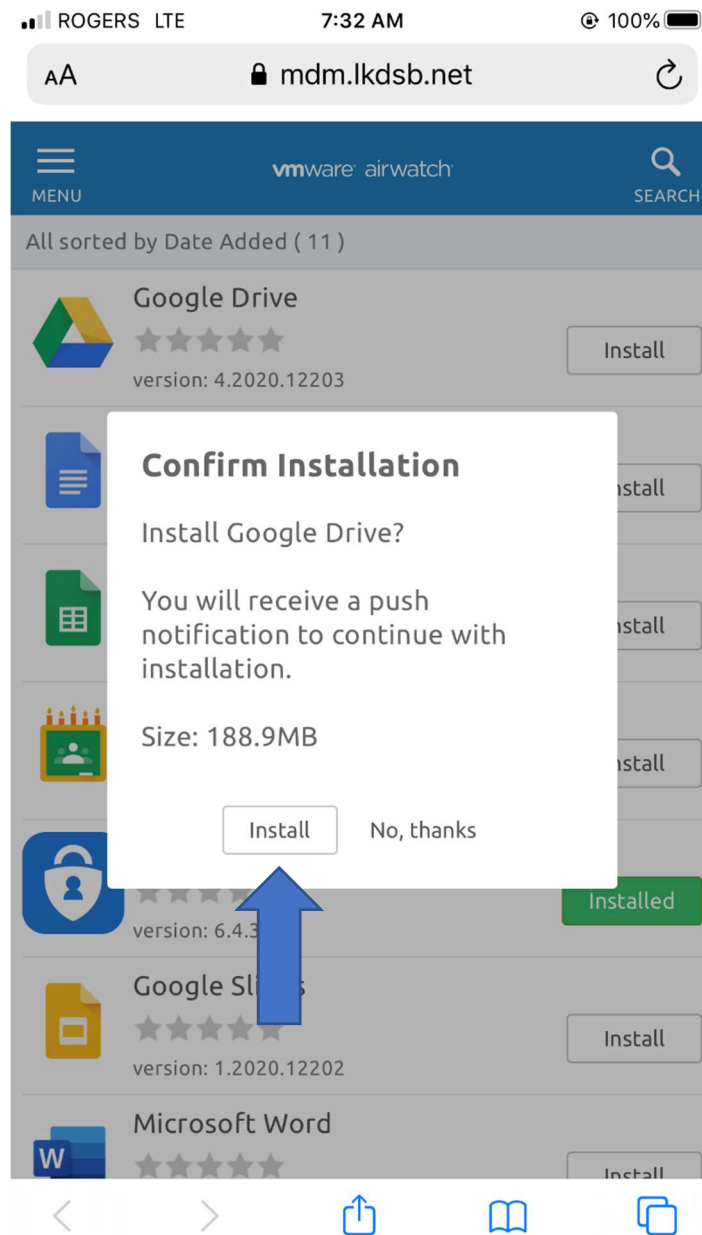

Step 1: Click on the  button called **App Catalog** on the home screen of the iPad.

Step 2: Click on the button beside the app you would like to use.

Step 3: Click on **Install** again on the pop-up that appeared.

Step 4: The app should now show as **Loading** on the home screen. This can sometimes take a couple minutes to appear. Once loading is completed you can then use the app.

***** If the app does not appear please try again starting from Step 1.**
