

Music for Critters by Open Strum

Hello,

I am doing a project with schools to help animals and the environment. Three schools will win \$500 for musical instruments for participating in the fundraiser. Schools can participate at any time from September 2023 until April 30, 2024.

Students participate by bringing donations to help animal rescues, animal shelters, animal sanctuaries or environmental non-profits. Students choose which non-profit they want to support. Any teacher, from kindergarten to grade 12, can start this project with their class. It can be one class, or several classes that participate. The school will then be entered to win one of the \$500 prizes.

I will not be accepting any funds, donations will need to be made directly to the non-profit organizations.

There is no cost to participate. Send me a message and I will send you the participation form. The deadline to submit the form will be on May 3, 2024. I would love to have your school participate in the "Music for Critters" project!

Thank you,

Michel Goguen
