June 2, 2017

Dear Parent(s)/Guardian(s):

I am excited to inform you that Brigden Public School will be undergoing renovations over the summer. This is a long-term investment to our school and community. With this type of investment, schedules are often tight and depend on a number of factors. To assist with the schedule, some renovation work will begin at the school during the month of June.

Student, staff and community safety will continue to be a priority during renovations and disruption to programming will be limited. The school and General Contractor are working very closely with LKDSB Building Services and LKDSB Health and Safety Departments.

For the month of June, you will begin to notice some storage containers arriving at the school and a fenced off dumpster. Work will begin in three classrooms that are currently not occupied by students. In addition, work in the gymnasium and hallways will start. Most of the renovations during June will occur in the evening with some possible daytime renovations (away from students). The gymnasium will be closed to all staff, students and community starting June 12th.

Arrangements are being worked out for some of our celebrations that occur in the month of June. I am hopeful we will have a solution for all of them (i.e. SK Celebration, Year-end Assembly) by the beginning of next week. This will be communicated in our June Newsletter.

This is an exciting investment for Brigden Public School and I encourage you to contact me directly with any questions regarding the renovations.

Sincerely,

Chad Brown
