

Volunteers

We appreciate the work that volunteers do to support student learning and activities at Great Lakes. People who wish to volunteer must be screened first by the principal and then get a police vulnerable sector check (form given at the time of screening). Successful applicants will then be added to the school's volunteer list and may volunteer. Parents on the volunteer list may also become volunteer drivers if they complete a volunteer driver form available from the principal. Thanks to the approximately 40 people who volunteer for the school. For more information, please contact the principal.
