June 2020

June is usually a busy time for schools and this year brings new challenges. However, the entire team at King George is dedicated to ensuring a smooth end to the academic year. We are so very proud of our school and the tremendous efforts everyone has made to ensure a semblance of normalcy and stability during these uncertain times. Thank you for your patience, flexibility, and understanding through these last months. And while things may look different, some things also stay the same. The FDK team is planning to connect with the families of incoming JK students, our graduation committee is working on initiatives to recognize our graduates, and plans are in place to support students with transitions. Together, we are working to navigate the changes that this term brought and continue to work together to make King George such an incredible place. #KGSTRONG
Be sure to check the board website regularly at www.lkdsb.net for important updates and information.

Community Resources

Included below are community resources that might be helpful. Please do not hesitate to contact the school should you have any questions or concerns.

Many members of our community are caregivers for young children, parents, partners, and family members. These responsibilities and the challenges they bring have not stopped. And for many of us, there are new challenges and new realities to negotiate. The link below has been shared by the LKDSB to support caregivers and positive mental health:
