

A MESSAGE FROM YOUR...

Learning Commons

Where inquiry, imagination, discovery and creativity come alive!

What is a Learning Commons?

The Learning Commons is a new vision for our Library Space. The Learning Commons model has evolved out of the need to provide our students with the skills necessary to be successful in the 21st century. Our world continues to change and evolve with information and technology and the Learning Commons is our space to prepare our students for the future. Your children will engage in exciting learning opportunities that help them develop skills such as: Collaboration, Critical Thinking/Problem-Solving, Innovation/Creativity/Entrepreneurship, Self-Directed Learning and Citizenship. These learning opportunities will promote personal, academic, social and cultural growth.

We need your support to help us build our

Maker Spaces!

If you have any new or used items you would like to consider donating, please send them to school with your child in October!
