

SHAVE FOR THE BRAVE

Change Your School. Change Yourself. Change a Life!

Change Yourself

The Shavers often gain the most from the experience. By engaging in meaningful acts of volunteerism, Shavers experience society, community, and philanthropy in a powerful way. The sacrifice experienced by the shave helps to raise their social consciousness while having a lot of **fun!**

"As a young adult cancer survivor myself, we talk a lot about cancer and support. When Lincoln told me that he wanted to participate in the Shave for the Brave at the age of 5, it was a very proud momma moment."

Lincoln - 2023 Shaver at age 5.

Change a Life

The most fulfilling part of the Shave is meeting the individuals who benefit from the Shave. Cancer is different for young adults and their recovery often takes longer than treatment. YACC's programs are custom made for young adults and they know, every cancer, every stage, YACC has got their back.

"I was diagnosed with cancer at the age of 26 and 28, just as I was starting my independent "adult" life. New apartment, new career, future mapped out. It all seemed to disappear after my diagnosis. Finding community, support and guidance from the YACC community helped me move past my diagnosis."

Kristen - 2 x Kidney cancer survivor.

SHAVE FOR THE BRAVE

Change Your School!

A supremely inclusive event, the Shave for the Brave is not about athletics, academics or popularity, it's about **heart**. You will see kids from every group in your school step up to Shave and take the spotlight on stage for their courage and kindness. This is an event your school community will remember forever.

YACC is able to have the backs of young adults because schools like yours have **ours!**

Shave Facts

- Shave for the Brave has been running for 18 years!
- Over \$7 million raised
- Some 16,000 heads shaved
